I want to explain to you the motive that obligated me to return to the U.S.

Mr. Magistrate, in 2000 I had problems with some gang members or mara salvatrucha. They wanted me to become a member. They were people who had been deported from the U.S. and formed the mara salvatrucha so they could be in control of everything. I received a message where they offered me a high position within this group. I refused all the offers made to me to join this hateful group. I received a message from the head of the group that if I didn't join the group they were going to kill me. I didn't think they would follow through on their threats; they followed me many times until one day they cornered me and I was attacked by several gang members. They thought I was dead. By the grace of God I survived. I woke up in the hospital with major injuries to my body. I was in intensive care for several days. The mara found out I was still alive and again began to search for me. That is when my family decided that I should immigrate from Honduras to the U.S.

In 2004 when I was sent back to Honduras I thought they would have forgotten about me. They had received information that I was back and they once again sought me out. They even had the address of where I was living at. The house was attacked by bullets and destroyed everything. That was when my mother obligated me to leave that country immediately. I was able to communicate to the mother of my child to cancel her plane ticket because I was in a dangerous situation. Your Honor, I did not want to come back to this country and violate the law. My mother didn't understand the trouble I would encounter in returning back to the U.S. My mother was very desperate and said that she would rather see me move far away from them than to see me dead. My brother Alexi was also attacked by the mara and he is a body guard for the National Congressional President of Honduras and has made many arrest of various gang members. My brother Danery is Lieutenant of the police department and has also obtained arrest of leaders from the mara saluatrucha as well as the 18. All this information that I am providing to you is my motive for returning to this country, I hope that you will understand that it is my life that is in and will continue to be in danger.

Your Honor, I regret coming to the U.S. and I ask for your forgiveness for disobeying and violating the law by returning. If you give me an opportunity I promise you that whatever happens to my life will happen and I will not return to the U.S.

Your Honor, I wanted to talk to you regarding the mother of my children. She already is in a new relationship but I recently spoke with her and she said she would let them visit so that I wouldn't have to come to the U.S. All this time that I've spent in jail I've had time to organize my thoughts and realize that there is much good in my country starting with my parents who love me so much and are alone, elderly and poor health.

Your Honor, I beg of you to give me an opportunity to return quickly to my country and assume responsibility of my parents. First off I want to ask God for forgiveness and to you your Honor and that of the government of the United States for breaking the law of this country.
